Foundation’s participation at Wonca-Dubrovnik

Breaking down barriers: Bringing People Together

15th - 18th April 2015
Wonca Dubrovnik - Photo album
Guiding principle

• 13th Wonca World Rural Health Conference
• How to remove barriers, connect doctors working in rural areas, according to different geographical and cultural characteristics and within different organized and funded health systems.
Attendance

• Around 1,200 physicians from 40 countries – the largest gathering of family doctors in Croatia.

• Over 600 family doctors from Croatia attended
Introductory lectures

• Prof. Amanda Howe, President of Wonca World,
• Prof. Richard Roberts, former president of Wonca World,
• Dr. Claudio Colosio, a leading expert in the health protection of farmers,
• Dr. John Wyn Jones, former president of European Rural and Isolated Practitioner's Association (EURIPA), Vice President WWPRP (Wonca Working Party on Rural Practice)
• Barbary Doty and Maya Racic.
Scientific lectures

• There were 15 scientific sessions, held 79 oral presentations (4 from Croatian authors), 58 workshops (4 from Croatian authors), 86 posters (16 from Croatian authors)

• A number of workshops were held within the program of the 6th Congress of KOHOM- exercising practical skills of spirometry, cryotherapy, emergency procedures in family medicine, differential diagnosis of rash in children, and even workshops on Ebola
Our contribution

• Foundation for the development of family medicine in Croatia attended with:
  • 9 posters
  • 1 oral presentation
